Abortion Pill Reversal	✓	X
STD/STI Testing & Treatment	✓	X

Neighborhood Alert:

Planned Parenthood of Rochester sells abortions up to 13 weeks and 6 days. The abortion vendor has neglected to make public their health and safety inspection records, giving no indication of any passing inspections for the past 20+ years. As of March 2020, Planned Parenthood of Greater New York does not recommend Rh factor testing for women receiving an abortion less than 8 weeks and under. This is medically negligent and can endanger the health of a woman and child. New York State abortion law allows abortion through all nine months of pregnancy, and for non-physicians to administer abortion procedures.
